**THE JOURNAL  
OF  
CYTOLOGY  
AND  
GENETICS**

A microscopic image of chromosomes, showing various stages of cell division. The chromosomes are stained and appear as dense, thread-like structures. The background is a soft, purple-to-white gradient, which makes the chromosomes stand out. The overall image has a scientific and artistic feel, typical of a journal cover in the field of cytology and genetics.

CONTENTS

Cytology in the systematics, phylogeny and evolution in plants IV. Rubiaceae P. M. MATHEW and CINTHYA CHRISTOPHER	1
Anthraquinone production in cell cultures of <i>Morinda citrifolia</i> L. through cotreatment with elicitors and precursors S. SREERANJINI and E. A. SIRIL	13
Cytology of seven apogamous fern taxa from Kerala P. M. MATHEW and CINTHYA CHRISTOPHER	19
Meiosis and chiasma distribution in <i>Sesbania rostrata</i> Bremek. & Oberm. V. RATTAN KUMAR, P. B. S. YADAV and M. V. SUBBA RAO	29
Consanguinity study in hospital populations of Palakkad District, Kerala I. Patterns, prevalence and effects P. JYOTHILEKSHMI and P. M. MATHEW	37
Cytology in the systematics, phylogeny and evolution in plants V. Asteraceae P. M. MATHEW and CINTHYA CHRISTOPHER	43
Karyotypic studies in five species of <i>Chaetosiphon</i> from Shimla KAMALESH KUMARI and D. C. GAUTAM	57
Consanguinity study in hospital populations of Palakkad district, Kerala II. Role of influencing factors of inbreeding P. JYOTHILEKSHMI and P. M. MATHEW	63
Studies on chromosomes of aphids from Berthin region of Bilaspur district of Himachal Pradesh SANJNA SHARMA and D. C. GAUTAM	73
Karyotype analysis and meiosis in <i>Tramea virginia</i> from Himachal Pradesh USHA KUMARI and D. C. GAUTAM	83
Colchicine induced asynaptic chromosomal behaviour at meiosis in chili pepper ( <i>Capsicum annum</i> L.) VISHNU PRASAD BHALA and R. C. VERMA	89
Hierarchical cluster analysis in <i>Bacopa monnieri</i> and its genetic implications CINTHYA CHRISTOPHER, P. J. MATHEW, P. M. MATHEW and VIJAYARAGHAVA KUMAR	93
Association of STin2 VNTR polymorphism of <i>SLC6A4</i> gene with bipolar disorder V. JAYA KUMARI, T. LOKESHU and V. LAKSHMI	101

## INFORMATION FOR AUTHORS

**The Journal of Cytology and Genetics** accepts reviews, full-length articles not exceeding 10 pages (approx. 20 manuscript pages including figures and tables) and short communications not more than 3 pages (within 2000 words) in the area of cytology, genetics, biotechnology, molecular biology and allied subjects. Submission of the manuscript implies that the work has not been previously published and is not under consideration for publication elsewhere and if accepted it will not be published elsewhere. **Two copies** of the manuscript with a set of original figures and photographs along with its soft copy are to be submitted to the editor, **Prof. B. H. M. Nijalingappa, # 261, 7th Main Road, Hampinagara, Vijayanagar II Stage, Bengaluru-560 104, India.** Email: [bhmnij@gmail.com](mailto:bhmnij@gmail.com).

While preparing the manuscript, the format followed in the latest issue of the journal shall strictly be adhered to. The **manuscript** should be typed on one side, double-spaced with a 30 mm margin on all sides and completely ready for type setting. The **title page** should include a brief and specific title of the paper, name(s) of author(s), affiliation(s) and address for correspondence including Email ID. The material must be clearly arranged under appropriate headings and presented in a good, readable style. Each contribution should be preceded by a summary. Immediately after the **SUMMARY**, 3-5 **Keywords** indicating the scope of the paper must be provided. *Genus* and *species* names should be in italics. Complete scientific name should be given when organisms are first mentioned. The genus name may subsequently be abbreviated to the initial. **Tables** prepared in conformity with the journal's style must be numbered consecutively with arabic numerals and submitted separately from the text at the end of the paper. Each table shall have a short self-explanatory title. Vertical and horizontal lines within the table are not allowed. Data given in graphs or tables should not be repeated in the text. All pages of the manuscript including tables and figure legends should be numbered consecutively. **Symbols** should be well defined and used consistently in figures, tables and text (lower case or capital letters, arabic or roman numerals). Citation of **References** in the text as follows: Girish & Saidapur (2003) or (Engell 1994). If there are more than two authors, only the first should be named followed by et al. If there is more than one work from the same author(s) or team of authors in the same year, the letter a, b, c etc. is added to the year both in the text and in the list of References. Listing of references in the text should be alphabetical e.g. (Adams 1989, Bell & Tora 1999, Prasad et al. 2002, Shao & Tu 2001). **Units of measure** should be **metric** and conform to **SI notation** e.g., g, mg, M, cm, mm,  $\mu$ m, l etc. and likewise duration should be abbreviated e.g., h, min, sec, d, wks, y and none of them should be followed by full points unless they appear at the end of the sentence. **Figures** should be submitted as high-quality glossy photographic prints (singly or as composite photographs) or as line drawings neatly executed in black ink suitable for full page reproduction. Illustrations must be restricted to the minimum needed to clarify the text. The figures should be set to match the printing area (15 x 17 cm). All figures (incl. graphs or diagrams) are to be numbered consecutively throughout and submitted separately. **Figures should not be designated with letters.** Both in the text and legends, the figures should be referred to as Fig. 1, 2, 3 and so on. Legend should be short and appended to the text. They should provide a brief, self-sufficient description of each figure. Like tables, legends should also be submitted on separate sheets following the main text. Under **References** works that are cited in the text should be listed in alphabetical order under the first author's name. Journal titles should be abbreviated in accordance with the rules set by *Chemical Abstracts*.

**The Journal of Cytology and Genetics**, founded in 1966, welcomes original research articles in any area of plant and animal cytogenetics, cell and molecular biology including molecular systematics of plants and animals and biotechnology including those of interdisciplinary nature. Two issues form one volume published in June and December every year. All articles published in the journal have been reviewed by the referees and are deemed to reflect the individual opinions of authors and not of the publisher.
